"**Best Ring** - We think the disposable buzzing ring is the best thing to happen to sex since Dr. Ruth. But not all are created equal. **The Screaming O™** vibrating ring turns your guy into your favorite vibe with a textured nub that hits you in just the right spot. And, best of all, the rubber gel ring stays put on his penis—but is still comfy for him—and lasts up to 30 minutes, so it won't fizzle before you reach the finish line."
